Good Run of Hogs Considering the Day.

Only Dulines Due to Light much as possible.—St. Louis Republic. Supply.

The Wichita hog market yesterday ruled strong to 5 cents higher, with a light supply and quality only moderate. There were no cars of hogs yarded which could with some fair to good hogs, but there were enough with them usually of either runty stock or coarse heavies to lower the average tone. It was a fair 2003 the average tone. It was a very fair day for a ballion. liday, exceeding both Thanksprices possible, the market quotation be-ing fairly strong to 5c higher. Col. Hob yers and the Dold company readily took in all offerings, Dold taking the hig end. There was a good spirited demand, and more good fat hogs of medium weight and in well fed condition would have sold in large quantities. It was much the same on the market and at the exchange as other days, although the light run and the muck sales caused the various representatives plenty of leisure time. The local and wagon trade was practi-cally nothing, all of the hogs from this branch coming in early and seiling at a shade higher; common grades slow at orce. The range of the bulk was only about steady prices. Heavy native steers, 74 cents, against 12% cents on Saturday \$5.0095.30; medium, \$4.5095.50; light The average weight was 7 pounds under that of Saturday, and 15 cents above that of Monday of last week. The receipts for esterday were about twice those of each of the other days. Business was wound up early, with nothing reported for the lay but with several advices of hogs due There was no want of enthusiasm and it would have been a lively day if the state of high had arrived. The outlook is very Shee promising for receipts of hogs for the of mu week, and in fact for some time on.
The demand is better than ever and it will be easy to sell hogs at this point for some time to come.

RAISING PIGS. A great many farmers who own small farms do not raise hogs, giving for their reasons: "We do not raise enough corn to feed them."
